opticalCON® Coupler

Our opticalCON® couplers are designed to extend the range of your existing opticalCON® connection. Thanks to our wide variety of opticalCON® couplers any connection can be expanded. Weatherproof or indoor couplers are available. Additionally, couplers with breakout capabilities are provided. For instance, an opticalCON® MTP®48 ADVANCED can be split up into two opticalCON® MTP®24 ADVANCED for appropriate routing of the signals. More details can be found in the product chart below.
